

HUYNH TRONG PHUC

Software Developer Intern

Motivated Software Developer Intern seeking to apply technical knowledge in a real-world working environment. Eager to enhance programming skills, gain hands-on experience in software development, and contribute to building high-quality applications while continuously improving professional expertise.

Personal Information

- 0899533878
- phuc13032005@gmail.com
- <https://github.com/trongphuccute>
- Binh Tan District, Ho Chi Minh City, Vietnam

Education

University of Transport Ho Chi Minh City (UTH)
| 2023 - Present
Major: Software Engineering
Current GPA: 3.15

Skills

- Frontend development (HTML, CSS, JavaScript, Bootstrap)
- API Integration (RESTful API)
- Git & GitHub (version control)
- Task management using Jira
- Basic problem-solving and debugging skills
- Responsive Web Design
- Ability to read and understand technical English documents

Technical Skills

Công Nghệ

- HTML, CSS, JavaScript
- REST API
- Git, GitHub
- Jira
- PYTHON
- Bootstrap (basic)

INTERESTS

- Reading
- Playing sports

Relevant Experience

Academic Projects & Team Collaboration | 2023 - Present

Participate in group software development projects during your studies at school.

- Participated in software development projects during university coursework
- Analyzed system requirements and implemented core features
- Designed UI and developed functionalities using programming languages
- Collaborated in teams, divided tasks, and delivered on time
- Used GitHub for version control and Jira for task tracking
- Tested and debugged applications to improve quality

Projects

Smoking-Cessation-Support-Platform | 6-2025 - 7-2025

Software Developer (Project Member)

(Smoking cessation support platform)

- Contributed to the development of a web platform that supports users in quitting smoking through structured guidance and progress tracking
- Implemented features for sharing articles and blog content to raise awareness about the health risks of smoking and encourage behavior change
- Designed and developed modules to track user activities, including smoking habits, progress status, and improvement statistics
- Organized and managed user data, ensuring accurate storage and retrieval of user information
- Built user interface components and ensured a user-friendly experience for different types of users

SaaS Smart Restaurant Management Platform with QR Code Ordering

| 10-2025 - 12-2025

Frontend Developer / Web Developer

- Developed and maintained the user interface for an S2O Guest Web system, enabling customers to access restaurant services via QR codes
- Designed and implemented responsive UI/UX to ensure an intuitive and seamless user experience across devices
- Integrated frontend with backend APIs to display real-time data such as menus, orders, and customer interactions
- Built reusable UI components and optimized page performance for faster loading and better scalability
- Collaborated closely with backend developers and team members to align system functionality and requirements
